

Information for Employers

As a school we are keen to work with employers to raise awareness of different industry sectors, local employment opportunities and raise aspirations with young people.

Throughout the year we may have different activities and/or events which you may feel that you can contribute or be involved in supporting us with, these events and dates are listed below.

The world of work for young people is daunting, not knowing what to expect, skills required, options and expectations from employers. We endeavour to prepare our young people for the world of work but as employers you are best placed to say what skills/qualifications are needed, what you are looking for, expectations, opportunities, and progression in the workplace.

If you feel you can support, please email michael.smith@bostonhighschool.co.uk.

Potential lessons/Activities
